

## AMENDMENTS TO THE DRAWINGS

Applicant submits substitute drawings pursuant to the Manual of Patent Examining Procedure §608.02(h). The substitute drawings include no new matter. The changes in the substitute drawings includes deleting the term “~~voice~~” in every instance where “voice” is in front of the term “recognition,” and inserting the term “speech” in the deleted term’s place. This change is being made in accordance with the Examiner’s recommendation. The term “voice” as originally submitted includes the term “speech.” Accordingly, no new matter has been added to the application by substituting the term “speech” for the term “voice.”

A marked up version of the substitute drawings showing all the changes (including the matter being added to and the matter being deleted from) to the drawings of record are submitted. Moreover, a clean version of the substitute drawings are submitted without markings as to the amended material.
